

Create a biography of a famous 'space' person.

Create a comic strip of a character's adventure into space.

Create a video diary of your journey into space, complete with cardboard helmet!

Design a new space ship and create some labelled sketches of it.

Write your own Dr. Who episode or Star Wars story.

Design a space suit for a new planet. Build it out of junk!

Research books and films based around space.

Find out about the planets – what they are made of, how do they behave?

Year 5 Learning Log for
Spring 1st Half-Term

Earthlings

Research one specific planet in the solar system.

Explore how astronauts live in space (eating, washing, exercising, going to the toilet!)

Design an alien species that would survive on a certain planet such as one that is freezing cold.

Find out about technology of the future or design some of your own.

These are only suggestions. Choose one or two or use your own ideas - just be creative and learn something!
