

Advice on Goggle Use

ADVICE TO PARENTS WHOSE CHILDREN WISH TO WEAR GOGGLES IN A SCHOOL SWIMMING LESSON.

1. Goggles are not needed for everyday swimming.
2. It should be remembered that, in the event of your child being involved in a hazardous water situation it is extremely unlikely he/she would be wearing goggles. It is highly desirable therefore, that your child learns to swim without being dependent on goggles.
3. Goggles may cause injuries, even resulting in blindness, if a child knocked on the goggles when swimming or diving; or when putting them on and removing them.
4. Goggles do not keep all water out of the eyes.
5. Goggles often steam up for the first few minutes after putting them on.
6. School swimming lessons last 30-60 minutes.
7. The children can swim in large numbers and sometimes in crowded conditions. Beginners do not always have full control of arm and leg movements. These factors may increase the possibility of being hit on the goggles.
8. Goggles are held in place by tight elastic and are hard plastic.
9. The use of goggles is advisable only when there is excessive reaction to the chemicals in the water, and where the swimmer is involved in lengthy training sessions. These cases goggles may reduce the effect of contact of the eyes with the water a little.
10. If goggles are used, they should not be made of glass or breakable plastic. It is recommended that such goggles are purchased from a recognised sports equipment retailer or from local baths/leisure centres.
11. Your child will need to be taught how to put on, remove the goggles and how to empty the water out safely.
*"The goggles must be held firmly with both hands, each gripping the outside corner where the straps are attached.
The goggles must then be pushed upwards - and NEVER pulled out away from the face."*
12. If you wish your child to wear goggles in the school swimming lessons, please make this request in writing to the school by completing and returning the form below.
