

# Earth and Space

Our Role Play Area is going to be a Space Centre. We are going to be looking at what would be inside a Space Centre and what happens at NASA.

During 'Key Worker Time,' we will be looking at being happy, thinking happy and having positive thoughts.

We will be looking at numbers from 11-20 and then going beyond 20. We will be using lots of resources so the children recognise amounts too. Later in the term we will look at subtracting.

We will be reading the story 'How to catch a star', 'Look up' and 'Aliens in underpants save the world'. We will be looking at labelling and writing letters.

We will be learning to use split pins to make moving astronauts. We will also be using the Creative Area independently to make telescopes and rockets.

We will be looking at Pentecost and celebrating the good news of Jesus. We will be also learning about The Holy Spirit.

In P.E with Mrs Spacey we are focusing on our Fundamental Movement Skills, working on our jumping, hopping and throwing under and overarm. This will all be around the theme of 'Jack and the Beanstalk'.

We will be looking at answering the question, 'What is Space?' We will also be looking at and learning about the planets. We will be learning all about the moon and Neil Armstrong too.
