

# How we grow

**Year 2  
Science  
Autumn 1**

## What is this topic?

This topic is all about how we grow as human beings, where we start and where we end up. We will consider living things and non-living things as well as what it means to be alive. Linked to this we will look at what we need to stay alive and the characteristics of a Human. We will also look at how we are the same and different to other living things.

## Key Vocabulary

Living	Something that is alive.
Non-living	Something that is not alive.
Mammal	Warm blooded animal that has hair or fur
Homo sapiens	A species to which modern Human beings belong.

## Key Knowledge

- ❖ Animals including humans have offspring.
- ❖ Humans begin as a baby and go through different stages of growth.
- ❖ Animals and Humans need food, air and water to survive.
- ❖ Human beings are also called Homo sapiens.
- ❖ There are seven stages of human growth.

## What will I learn?

- ❖ How many stages of human growth there are and in what order these are adopted.
- ❖ What happens at each stage of human growth.
- ❖ How Animals and Humans are similar.
- ❖ What Humans and Animals need to survive.
- ❖ How to separate living and non-living things from one another.
