

### Key Knowledge

- Know that a website has a unique address.
- Identify some features of web pages e.g. graphics, hyperlinks, text.
- Navigate a web page to locate specific information.
- Begin to understand how search engines work and know that there are different search engines; some to search within sites, and some to search the wider Internet.
- Use a range of child friendly search engines to locate different media, e.g., text, images, sounds or videos.
- Develop key questions and key words to search for specific information to answer a problem, e.g., a question such as 'Where could we go on holiday?' would become a search for 'holiday destinations'.
- Understand that some information found through searching is more relevant than others.
